750ml

Art.-Nr.

33655TRI-750

750ml (10x) >  (44x) > 

Application

Spray the area to be treated well and let it act for at least 60 seconds. Then wipe it off thoroughly with a dry or damp cloth. We recommend carrying out a test beforehand on sensitive surfaces.

STRUB VIRO-PROTECT Wet Wipes

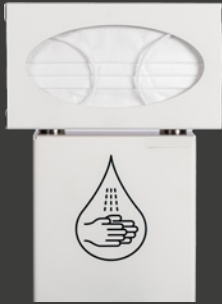

STRUB VIRO-PROTECT WET WIPES is a modern, convenient cleaning product for a wide range of applications. STRUB VIRO-PROTECT WET WIPES are 72 lint-free and wipe-proof cleaning cloths made of 100% polypropylene with a corresponding fibre and active surface structure, impregnated with a powerful cleaning liquid. In a handy, reclosable dispenser bucket. Cleans without water quickly and thoroughly all adhering dirt from hands and many object surfaces. The cleaning cloths are ideal for on the road, e.g. for drivers and fitters. Also contains caring vitamins E and Aloe Vera. The liquid in the cloths is skin-friendly and dermatologically tested with the rating „Very good“.

Sizes	Art.-Nr.
72 Wipes	956060

Application

Pull STRUB VIRO-PROTECT Wet Wipes cleaning cloths from the bucket and tear off at the perforation. Rub hands clean with a washing motion. For tools, components and smooth surfaces, simply wipe away the dirt. In case of very heavy soiling, repeat with a new cloth if necessary. Dispose of used cloths according to the legal regulations, depending on the amount of dirt adhering to them.

Application dispenser

The VIRO-PROTECT dispenser is triggered by an infrared sensor, which makes it contactless.
One filling is sufficient for approx. 2500 triggers.

STRUB VIRO-PROTECT Fever module

The STRUB VIRO-PROTECT fever module is an addition to the VIRO-PROTECT dispenser and measures body temperatures using an integrated thermometer and camera with an accuracy of 0.2 degrees Celsius. The standard version is supplied with a power supply cable. A rechargeable battery (item no. 955001.UPGRADEAKKU) is available separately to enable wireless operation with a running time of 7.5 hours. A weather protection shield is optionally available for this module (item no. 955001.UPGRADESCHILD) to enable outdoor use.

STRUB VIRO-PROTECT

UV-C Light Disinfection device

Removes corona viruses and germs from the air

STRUB VIRO-PROTECT UV-C Light is a product for air disinfection, is installed in closed rooms and reliably removes viruses and bacteria. This means that the device is not only useful against corona viruses, but also effective against other viruses and bacteria.

Art.-Nr.

955001.UV

Application

It is particularly suitable for waiting rooms in doctor's offices, in hairdressing salons, cosmetic studios, fitness studios or even pubs and restaurants - wherever people come together for a long time with little distance in one room and where the germ load in the air needs to be kept constantly low.

For air disinfection in closed rooms such as

- Restaurants
- gyms
- Doctors' offices
- Open plan offices
- Hairdressing / cosmetic salons
- Classrooms
- Living rooms
- retail stores
- Checkout areas

benefits

- Reliably removes corona viruses and other germs from the air
- Even removes a large part of the fungal spores from the air
- Maintenance-free as there is no filter
- Harmless to humans and animals
- Chemical & ozone free
- Scientifically recognized UV-C light method
- No emission of UV radiation
- Extremely low operating costs, even with continuous operation
- UV lamp for replacement available
- No assembly
- Easy handling
- Robust

masks

Operating mask

This surgical mask complies with EN 14683:2014 Type II and is made of hypoallergenic, particularly soft and supple non-woven fabrics. The natural latex-free surgical mask is equipped with a special micro microbial filter to allow free breathing with optimum filter performance. The long, integrated nose clip provides additional comfort. This surgical mask is equipped with soft, elastic rubber bands for fixation behind the ears. This makes it much easier to put the mask on.

- Natural latex-free
- Special microbial filter
- Odourless
- Hardwearing
- Easy and quick to put on thanks to the loop system
- Colour: light blue
- non-sterile

Face mask KN95

This effective, hypoallergenic mouth and nose protector impresses with its good fit, adjustable with adjustable nostrils, and high wearing comfort. The high air permeability allows them to breathe relatively freely, while the mask reliably protects them. And that is certified. The half-mask meets the FFP 2 protection level of the EN149:2001+A1:2009 standard.

- the outermost layer filters out coarse dirt and
- Dust particles
- underneath is a layer which filters out fine dust down to $2.5\mu\text{m}$ (PM 2.5)
- followed by the N95 filter layer for improved
- Bacteria and virus protection
- an electrostatically charged layer on the very inside, which attracts fine dust particles already present on the skin and binds them to the mask
- protects up to 10 times the MAK value (maximum limit of the maximum workplace
- concentration)
- low exhalation resistance for a pleasant wearing comfort
- optimal fit due to adjustable nose clip
