Privacy policy for cookies

This website uses cookies. Cookies are text files that contain data from visited websites or domains and are stored by a browser on the user's computer. The primary purpose of a cookie is to store information about a user during or after his or her visit within an online offering. Stored information may include, for example, language settings on a website, login status, a shopping cart, or where a video was watched. The term cookies also includes other technologies that perform the same functions as cookies (e.g., when user information is stored using pseudonymous online identifiers, also known as "user IDs").

The following cookie types and functions are distinguished:

- **Temporary cookies (also: session cookies):** Temporary cookies are deleted at the latest after a user has left an online offer and closed his browser.
- **Permanent cookies:** Permanent cookies remain stored even after the browser is closed. For example, the login status can be saved or preferred content can be displayed directly when the user visits a website again. Likewise, the interests of users used for reach measurement or marketing purposes can be stored in such a cookie.
- **First-party cookies:** First-party cookies are set by us.
- **Third-party cookies (also: third-party cookies):** Third-party cookies are mainly used by advertisers (so-called third parties) to process user information.
- **Necessary (also: essential or absolutely necessary) cookies:** Cookies may be absolutely necessary for the operation of a website (e.g. to store logins or other user input or for security reasons).
- **Statistics, marketing and personalization cookies:** Furthermore, cookies are generally also used in the context of range measurement and when a user's interests or behavior (e.g. viewing certain content, using functions, etc.) on individual websites are stored in a user profile. Such profiles are used, for example, to show users content that matches their potential interests. This process is also referred to as "tracking", i.e., tracking the potential interests of users. Insofar as we use cookies or "tracking" technologies, we will inform you separately in our data protection declaration or in the context of obtaining consent.

Notes on legal bases: The legal basis on which we process your personal data using cookies depends on whether we ask you for consent. If this is the case and you consent to the use of cookies, the legal basis

for processing your data is your declared consent. Otherwise, the data processed with the help of cookies is processed on the basis of our legitimate interests (e.g. in a business operation of our online offer and its improvement) or, if the use of cookies is necessary to fulfill our contractual obligations.

Storage period: If we do not provide you with explicit information on the storage period of permanent cookies (e.g. in the context of a so-called cookie opt-in), please assume that the storage period can be up to two years.

General information on revocation and objection (opt-out): Depending on whether the processing is based on consent or legal permission, you have the option at any time to revoke any consent you have given or to object to the processing of your data by cookie technologies (collectively referred to as "opt-out"). You can initially declare your objection by means of your browser settings, e.g. by deactivating the use of cookies (whereby this may also restrict the functionality of our online offer). An objection to the use of cookies for online marketing purposes can also be declared by means of a variety of services, especially in the case of tracking, via the websites <https://optout.aboutads.info> and <https://www.youronlinechoices.com/>. In addition, you can obtain further instructions on how to object in the context of the information on the service providers and cookies used.

Processing of cookie data on the basis of consent: We use a cookie consent management procedure in which the consent of users to the use of cookies, or the processing and providers mentioned in the cookie consent management procedure, can be obtained and managed and revoked by users. Here, the declaration of consent is stored in order not to have to repeat its query and to be able to prove the consent in accordance with the legal obligation. The storage can take place on the server side and/or in a cookie (so-called opt-in cookie, or with the help of comparable technologies), in order to be able to assign the consent to a user or their device. Subject to individual information on the providers of cookie management services, the following information applies: The duration of the storage of consent can be up to two years. A pseudonymous user identifier is created and stored with the time of consent, information on the scope of consent (e.g., which categories of cookies and/or service providers), as well as the browser, system and end device used.

- Types of data processed: Usage data (e.g. web pages visited, interest in content, access times), meta/communication data (e.g. device information, IP addresses).
- Data subjects: Users (e.g., website visitors, users of online services).
- Legal basis: Consent (Art. 6 para. 1 p. 1 lit. a. DSGVO), Legitimate Interests (Art. 6 para. 1 p. 1 lit. f. DSGVO).

Privacy policy for SSL/TLS encryption

This website uses SSL/TLS encryption for security reasons and to protect the transmission of confidential content, such as requests that you send to us as the site operator. You can recognize an encrypted connection by the fact that the address line of the browser changes from "http://" to "https://" and by the lock symbol in your browser line.

If SSL or TLS encryption is activated, the data you transmit to us cannot be read by third parties.

Privacy policy for server log files

The provider of this website automatically collects and stores information in so-called server log files, which your browser automatically transmits to us. These are:

- Browser type and version
- Operating system used
- Referrer URL
- Host name of the accessing computer
- Time of the server request

This data cannot be assigned to specific persons. A combination of this data with other data sources is not made. We reserve the right to check this data retrospectively if we become aware of specific indications of unlawful use.

Privacy Policy for Yumpu WEBKiosk with Custom Domain

This website uses Yumpu to display brochures.

Domain: <https://www.epaper.strub-lube.ch>

1. We use <https://www.yumpu.com/> of the company i-magazine AG ("i-mag" - Gewerbestrasse 3, 9444 Diepoldsau, CH) on our website. Yumpu provides a digital platform for publishing magazines, brochures or catalogs. Using Yumpu, the content of PDF files is presented as a so-called flip catalog/flipbook and displayed directly in the web browser without loading the PDF files.
2. Yumpu sets strictly necessary cookies to ensure basic functionality of the Service. You can opt out of the use of these cookies at any time by adjusting the cookie settings accordingly. The procedure for doing so varies depending on the browser you use. Browsers can be set to reject a certain type of cookie or certain cookies. The browser can also indicate when a cookie is being sent. You can do this by selecting the settings in your web browser according to your cookie preferences. Then, however, you may have to manually adjust some settings every time you visit a website. This may result in some services and features not working properly.
3. Yumpu uses Google Analytics, a web analytics service provided by Google Inc (1600 Amphitheatre Parkway Mountain View, CA 94043, USA). The use is based on Art. 6 para. 1 p. 1 lit. f. DSGVO. Google Analytics uses cookies that enable an analysis of your use of the Yumpu service. The information generated by the cookie about your use of the website, such as browser type/version, operating system used, referrer URL (the previously visited page), host name of the accessing computer (IP address), time of server request, is usually transmitted to a Google server in the USA and stored there. The IP address transmitted by your browser as part of Google Analytics is not merged with other data from Google. Yumpu has also extended Google Analytics with the code "anonymizeIP". This guarantees the masking of your IP address so that all data is collected anonymously. Only in exceptional cases will the full IP address be transferred to a Google server in the USA and shortened there.

Google Analytics deactivation link: You can prevent Google from collecting further visits to this website. Attention: Deleting cookies, using the incognito/private mode of your browser, or using another browser will cause data to be collected again. [Disable Google Analytics](#).

4. Log files

Yumpu automatically collects and stores information in so-called server log files, which your browser automatically transmits. We keep these for up to one month, after which they are deleted. These are:

- Browser type and browser version
- operating system used
- referrer URL
- requested URL
- time of server request
- IP address.

A combination of this data with other data sources is not made. The processing is carried out in accordance with Art. 6 (1) lit. f DSGVO on the basis of legitimate interest in improving the stability and functionality of the website. A transfer or other use of the data does not take place.

Privacy policy for Google Analytics

This website uses Google Analytics, a web analytics service provided by Google Ireland Limited. If the data controller on this website is located outside the European Economic Area or Switzerland, then the Google Analytics data processing is carried out by Google LLC. Google LLC and Google Ireland Limited are hereinafter referred to as "Google".

The statistics obtained enable us to improve our offer and make it more interesting for you as a user. This website also uses Google Analytics for a cross-device analysis of visitor flows, which is carried out via a user ID. If you have a Google user account, you can deactivate the cross-device analysis of your usage in the settings there under "My data", "Personal data".

The legal basis for the use of Google Analytics is Art. 6 para. 1 p. 1 lit. f DS-GVO. The IP address transmitted by your browser as part of Google Analytics will not be merged with other data from Google. We would like to point out that on this website Google Analytics has been extended by the code "_anonymizeIp();" to ensure anonymized collection of IP addresses. This means that IP addresses are processed in abbreviated form, which means that they cannot be linked to a specific person. Insofar as the data collected about you is related to a person, this is therefore immediately excluded and the personal data is thus immediately deleted.

Only in exceptional cases will the full IP address be transmitted to a Google server in the USA and shortened there. On behalf of the operator of this website, Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage to the website operator.

Google Analytics uses cookies. The information generated by the cookie about your use of this website is usually transmitted to a Google server in the USA and stored there. You may refuse the use of cookies by selecting the appropriate settings on your browser, however please note that if you do this you may not be able to use the full functionality of this website. You can also prevent the collection of data generated by the cookie and related to your use of the website (including your IP address) to Google and the processing of this data by Google by downloading and installing the browser plugin available at the following link: [Disable Google Analytics](#).

In addition, you can also prevent the use of Google Analytics by clicking on this link: [Disable Google Analytics](#). This will save a so-called opt-out cookie on your data carrier, which prevents the processing of personal data by Google Analytics. Please note that if you delete all cookies on your terminal device, these opt-out cookies will also be deleted, i.e. you will have to set the opt-out cookies again if you wish to continue to prevent this form of data collection. The opt-out cookies are set per browser and computer/end device and must therefore be activated separately for each browser, computer or other end device.
